## Travel Program Refund Policy

This document describes the refund policy for the Travel Program. There are a set of fixed and variable costs associated with the program. Fixed costs are expenses that the program incurs regardless of whether any practices or games are held. The fixed costs of the program are not refundable. Variable costs are expenses that vary based on the number of practices or games. The variable costs will be refunded based on when participation in the program ends and the circumstances behind the cease in participation.

Refunds will be granted for the following reasons.

- Player cannot participate due to injury
- The club ceases operation of the program (e.g., due to COVID-19).

Parents can petition the board for a refund for extenuating circumstances.

If a refund is granted, the amount of the refund will be prorated based on the number of weeks that were completed. Table 1 summarizes the refunds that will be given based on the number of weeks.
